BEAUFORT DIGITAL CORRIDOR

NURTURING BEAUFORT'S TECHNOLOGY ENTREPRENEURS

What We Do

The Beaufort Digital Corridor nurtures and promotes technology entrepreneurs. Our BASEcamp facility – located in downtown Beaufort – provides scalable office space for tech startups and coworking desks for remote workers. BDC also offers networking opportunities, continuing education, and member-driven programs to help grow the tech economy in the Lowcountry.

WE'RE DEVELOPING FOUR AREAS TO GROW BEAUFORT'S TECH ECONOMY

WORKSPACES　**COMMUNITY**　**TALENT**　**CAPITAL**

WORKSPACES

BASEcamp is the hub for BDC programs and initiatives

We created BASEcamp to be "the place" for startup and early-stage tech companies in Beaufort.

Beaufort's premier business incubator and co-working office is located downtown and was designed to meet the needs of technology entrepreneurs seeking adaptable, affordable office space and conference facilities with the benefit of access to the Beaufort Digital Corridor's network of tech and business professionals.

BASEcamp

Furnished offices are flexible, scalable & cost-effective

Conference room, kitchen, high-speed wifi & other amenities

Coworking desks are perfect for remote workers

COMMUNITY

Our tech and entrepreneur community shares ideas, knowledge and insights at Fridays @ the Corridor

Beaufort's local technology community lies at the heart of everything that happens at the Digital Corridor.

Our members are key to the engagement and collaboration of this community that informs our initiatives and creates a tech-friendly business environment. The Beaufort Digital Corridor provides a range of business, social, and educational programs and events to continually cultivate our vibrant tech community.

TALENT

Tech education is a key BDC initiative – CODEcamp introduces basic programming

We are commited to building our economic future by developing tech talent in Beaufort.

The economic vitality, global competitiveness, and prosperity of our community depend on the innovation and skills of our workforce. The need for well-educated and skilled employees along with vetted outsourced resources is magnified in the tech industry where the technology landscape is evolving at an unprecedented rate.

LIVE WORK MENTOR

GAME ON!

Game On! helps students learn programming by game design

LIVE WORK MENTOR partners college groups with mentors

CODEcamp helps adults expand their programming skills

CAPITAL

The Digital Corridor's role is to aggregate investors and make curated information available to tech entrepreneurs operating in the Beaufort community. If you are an interested investor, please contact us for more information.

As a public-private nonprofit 501(c)(6) we depend on membership and community support. Thank you for supporting us in our efforts to attract technology professionals and develop local tech talent by working with them to become growing, hiring companies — in turn diversifying Beaufort's economy, raising per capita wages, and creating quality job opportunities.
