From the Director

Time is just flying by! With Thanksgiving around the corner, this is typically when we look back to the start of the year to reflect on our activities in support of Charleston's tech community while celebrating the success of our member companies.

With wage levels strong, companies growing, a fantastic iFiveK, students enrolled in our updated CODEcamp and CODEcamp Kids program, an MOU in place on the Flagship3 development and national recognition of our business community, Charleston's tech community continues firing on all cylinders.

Welcome New Members

The Digital Corridor is pleased to welcome the following new member companies:

Accounting Systems `COMPANY`
Custom software development centered around Sage 100 and Acumatica ERP systems with specialization in payment systems.

Brain Power Software `COMPANY`
Engage your employees with beautiful visual summaries of all their benefits and compensation. Brain Power's data automation software, Albert, joins your employee data, tests for accuracy, and delivers timely information to all audiences!

Donors Cure `COMPANY`
Donors Cure is a 501(c)(3) nonprofit organization that allows you to fund biomedical research projects led by researchers across the United States.

Harbormark `COMPANY`
Harbormark hosts educational events for professionals who seek to become more effective to their clients, organizations and stakeholders.

N3TWORK `COMPANY`
N3TWORK is a mobile game company that strives to build beautiful games that adhere to the things important to a mobile game player - an engaging and fun experience you're happy to spend time in.

nvisionative `COMPANY`
nvisionative helps you discover and implement your next great idea. Whether you're creating or re-creating your brand, product, marketing or website, you need a partner who can link creativity and innovation to help you achieve success.

Vero Healthcare Technologies `COMPANY`
Vero is focused on creating a safe learning environment for team based surgical training.

Visiture `COMPANY`
eCommerce Focused Search Marketing Agency At Visiture, eCommerce is first. We connect consumers with buying intent to your products using search engines.

Workiva `COMPANY`
Workiva delivers Wdesk, the leading cloud platform for reporting, compliance, and data management.

🌐 COMMUNITY

12th Annual iFiveK

A great event comes a little earlier in 2018! Our annual iFiveK will be held on Thursday, March 22nd at Riverfront Park in North Charleston! You'll love our new post-race team competitions. If you are interested in sponsoring the 2018 race, email us.

Leadership Profile Series

Charleston's tech leadership is growing. For some terrific insights, catch our monthly profile series, which currently features Vizbii's Julie Moreland with Tabula Rasa's Tom Wilson up next.

Fridays @ the Corridor

We all know an entrepreneur working on the next best app that will never make any money, right? Don't let anymore fall into the trap. Point them to our last presentation, which was a conversation on monetization of apps.

If you have not been to a Fridays @ the Corridor session, the nuggets of information that can be gleaned from our speakers will be helpful with starting and running your business. Heck, you can even watch our library of videos, thanks to our partner, Charleston County Economic Development.

Geektoberfest

With the help of local data center provider Immedion, our annual CorridorBASH evolved into Geektoberfest this year. This networking event better aligns with bringing Charleston's technologists together for our signature "no-strings-attached" event. Missed this years event? Plan to join us in 2018. Prost!

🏆 TALENT

CODEcamp

Thankfully, computer science and code education offerings in the Charleston Region are growing. With a session currently underway, CODEcamp's in-classroom, eight-week Introduction to Web Development course continues to provide an affordable option for folks in our community exploring a career in Charleston's software industry. Join us at our December meetup to learn more about CODEcamp.

CODEcamp Kids: Over the summer, we went back to our lab to make our eight-week CODEcamp Kids program even better. This class continues as an After School program at Moutrie Middle School in Mount Pleasant with the next class scheduled for January.

CharlestonWorks

Ask and you shall receive! We made some minor layout edits and modifications to speed things up while giving you an easier way to search companies on the site. If you are not listed, change that!

🏢 SPACES

Flagships

The Flagships continue to be the go-to place for early-stage tech companies in Charleston. Several of our recent companies have grown and graduated so we have a few spots open for tech startups. Visit our website to check availability or ping us for a tour and pricing.

💲 CAPITAL

Capital Update

Charleston's tech companies continue to raise capital to drive growth and business acquisitions while a few, including SnapCap, were recently acquired. To date, companies currently in residence and graduates from the Flagships have raised almost $200 million. So much for the chicken or egg crowd!

Did You Know?

The Brookings Institution ranked the Charleston metro as one of only 11 cities to achieve inclusive economic growth.
