From the Director

People often ask how a nonprofit organization passes the keys of the tech community to a new leadership team. Charleston Digital Corridor is no different. In the past, our leadership team has been comprised solely of professionals from the business community. Now our board is comprised of the same mix of business professionals, as well as elected officials and those in the community who want to see Charleston succeed as the technology hub of the Carolinas.

The Digital Corridor sees the aforementioned issues as equally important. Now that we are well past the initial sniff test by successfully demonstrating we can grow a high-wage tech economy, we must continue to address the next level of challenges. Thinking about how to build on our success while taking advantage of emerging trends is a must if we are to continue to lead the charge.

The Charleston Digital Corridor Foundation recently announced the 2015-16 Board of Directors. You can read the release here.

Online Poll Results

Here are some statistics from our recent online poll. We asked Charleston professionals about technology trends for the next five years. Over 300 people took our survey. Our results are as follows:

Q2 2015

What technology sector will experience the largest growth in the next 5 years?

- Cloud Services: 20.3%
- Cybersecurity: 22.8%
- Biotech: 22.8%
- Health IT: 22.8%
- Retail: 22.8%
- Blockchain: 22.8%
- Mobile: 22.8%
