ChatGPT for Students
Introduction, guidance, and example usage

Summary:
This class, aimed at middle and high school students, provides practical guidance and examples (along with a few cautions) on becoming proficient with conversational AI tools such as ChatGPT for academic enhancement and personal growth. Students will be guided through a practical yet super fun journey into the realm of ChatGPT and other text-based artificial intelligence tools. The goal of the class is not simply to convey the basics of AI. Rather, the aim is to equip our future professionals and leaders to fully leverage these powerful educational and business tools confidently and conscientiously.

Topics to be covered:
- Understanding the basics – the fundamentals of ChatGPT and Artificial Intelligence
- Interactive learning – understand the capabilities and limitations of ChatGPT
- Safety awareness – basic guidelines for interacting with ChatGPT safely
- Creative exploration – generate stories, poems or answering fun questions
- Ethical considerations – cautions for properly and maturely utilizing ChatGPT & other AI tools
- Reflection & feedback – we'll look at the big picture with time for open comments & discussion

What you will learn:
- Fundamental understanding of ChatGPT and LLMs
- Ability to engage with ChatGPT for interactive learning lessons
- Safety awareness & cautions for interacting with ChatGPT
- Ethical considerations when using ChatGPT
- Creative thinking with ChatGPT

Prerequisites:
- An internet computer
- Parents should create a ChatGPT account for their children using an email account they can access.

About your presenter:
Tom Wilson is the Founder/CEO of hyper.io, a company that provides a meta-service framework to remove the pain of working with cloud services. Before hyper, Tom was the CTIO with Tabula Rasa HealthCare Inc (TRHC). During this period, Tom serves the local technology community, inspiring and mentoring engineers. Connect with Tom on LinkedIn.
