IMEE CUISON CONSULTING
I help women in tech... stay in tech.

Transition into Tech

Summary:

The "Transition into Tech" workshop provides an overview of the tech landscape and how to plan your transition into the industry. This workshop is designed to provide participants with an introduction to the key sectors and roles in tech and how to implement a personalized strategy to transition into a new role.

This workshop is ideal for working mothers and mothers returning to the workforce who are curious about how to transition into a tech career. Participants will walk away with actionable steps on how to transition into a tech role.

Topics to be covered:

- Key sectors and roles within tech
- Current trends in tech
- Future outlook of the tech industry
- Tech career benefits
- Identifying transferable skills
- Career pathways
- Setting SMART Goals
- Questions & Answers

What you will learn:

By the end of the workshop, participants will understand how to find the tech role they will love, how to map out a transition plan, and how to set realistic and sustainable goals.

Prerequisites:

None

About your presenter:

Imee Cuison is a full stack software engineer, data scientist, and data engineer. After working a decade as an ICU nurse, she learned how to code and is living her dream life working from home and homeschooling her 8-year-old daughter. Her career in tech has enabled her to thrive as a single working mother to a child with a heart defect. Her goal is to help as many women as possible not only start a career in tech but continue to thrive in the industry. Connect with Imee on LinkedIn.
